

DAVID LIM WEI JIAN

Senior Software Engineer

david.lim@techpro.sg | +65 9234 5678 | Singapore | [linkedin.com/in/davidlim](https://www.linkedin.com/in/davidlim)

PROFESSIONAL SUMMARY

Versatile software engineer with 9 years of experience designing and delivering large-scale distributed systems across fintech, e-commerce, and SaaS sectors. Proven track record of leading cross-functional teams, mentoring junior engineers, and driving cloud migration projects from inception to production.

WORK EXPERIENCE

Senior Software Engineer -- FinanceHub Pte Ltd, Singapore (Jan 2021 - Present)

- Architected a real-time payments processing platform handling SGD 2B+ monthly transactions, reducing latency from 450ms to 38ms via async queue redesign.
- Led a team of 6 engineers through migration of a monolithic Rails app to microservices on AWS EKS; reduced deployment time from 2 hours to 8 minutes.
- Introduced contract testing (Pact) across 14 services, cutting integration failures in staging by 73%.
- Mentored 3 junior engineers; 2 have since been promoted to mid-level roles.
- Technologies: Python, FastAPI, Kafka, PostgreSQL, Redis, AWS (EKS, RDS, SQS).

Software Engineer -- ShopEasy Technologies, Singapore (Mar 2018 - Dec 2020)

- Built the order management system serving 1.2M daily active users across SEA, integrating with 7 payment gateways and 4 logistics providers.
- Designed a recommendation engine (collaborative filtering) that lifted average order value by 18% in A/B testing.
- Migrated MySQL data warehouse (8TB) to Redshift with zero downtime using CDC via Debezium and Kafka Connect.
- Technologies: Python, Django, MySQL, Redshift, Elasticsearch, Docker.

WORK EXPERIENCE (CONTINUED)

Junior Software Engineer -- DataSpark Consulting, Singapore (Jul 2016 - Feb 2018)

- Developed ETL pipelines ingesting telco clickstream data (5B events/day) into a Hadoop data lake, enabling downstream analytics for 3 enterprise clients.
- Built internal dashboards (React + D3.js) reducing analyst reporting time by 4h/week.
- Wrote comprehensive unit and integration test suites, achieving 91% line coverage.
- Technologies: Python, Java, Hadoop, Hive, Spark, React.

Software Engineering Intern -- GovTech Singapore (May 2015 - Jun 2016)

- Contributed to the MyInfo national digital identity platform (250K+ users).
- Implemented OAuth 2.0 PKCE flow and added rate-limiting middleware that blocked 99.97% of credential-stuffing attempts during a load test.
- Technologies: Node.js, Express, PostgreSQL, Redis.

EDUCATION

Bachelor of Engineering (Computer Science) -- First Class Honours

Nanyang Technological University, Singapore (2012 - 2016)

Relevant coursework: Distributed Systems, Database Systems, Algorithms, Operating Systems, Software Engineering, Machine Learning.

Final Year Project: Adaptive Load Balancing for Microservice Meshes

Awarded Best FYP in the School of Computer Science and Engineering.

CERTIFICATIONS

- AWS Certified Solutions Architect - Professional (2023)
- AWS Certified Developer - Associate (2021)
- Google Professional Cloud Architect (2022)
- Certified Kubernetes Administrator (CKA) (2022)
- HashiCorp Terraform Associate (2021)

TECHNICAL SKILLS

Languages: Python, Java, Go, TypeScript, SQL, Bash
Frameworks: FastAPI, Django, Spring Boot, React, Next.js
Databases: PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch, Redshift
Infrastructure: AWS (EKS, EC2, RDS, SQS, Lambda), Terraform, Kubernetes, Docker
Data: Kafka, Spark, Airflow, Debezium, dbt
Observability: Datadog, Grafana, Prometheus, OpenTelemetry
Practices: TDD, CI/CD, Domain-Driven Design, CQRS, Event Sourcing

NOTABLE PROJECTS

Open-Source: pg-stream (github.com/davidlim/pg-stream)
- PostgreSQL logical replication client library in Go; 340 GitHub stars.
- Used in production by 3 Singapore startups to power real-time dashboards.

Side Project: BudgetWise (budgetwise.app)
- Personal finance SaaS for SEA users; 1,800 MAU, profitable since month 8.
- Full-stack: FastAPI backend, Next.js frontend, Supabase, deployed on Fly.io.

PUBLICATIONS AND TALKS

- Taming Microservice Complexity at Scale -- PyCon SG 2023 (speaker)
- Zero-Downtime Database Migrations -- Engineers.SG blog post (2,400 reads)

VOLUNTEER WORK

- Code mentor at Code For Good Singapore (2019 - present); 12 mentees to date.
- Co-organiser, Singapore Python User Group monthly meetup (2020 - present).

LANGUAGES

English (Native), Mandarin Chinese (Fluent), Malay (Conversational)
