SUMMARY

Senior backend engineer with 8 years of experience building high-throughput APIs and data pipelines. Deep expertise in Python, FastAPI, PostgreSQL, and Kafka. Track record of reducing p99 latency by 40% and leading teams of 4-6 engineers.

SKILLS

Python, FastAPI, PostgreSQL, Redis, Kafka, Docker, Kubernetes, AWS
SQLAlchemy, pytest, asyncio, gRPC, Terraform, Grafana, Datadog

EXPERIENCE

Senior Software Engineer - Stripe (2020 - present)

- *Redesigned the payment event pipeline using Kafka, reducing processing lag from 8 s to under 200 ms.
- *Authored FastAPI microservices handling 50 k req/s with 99.95% uptime over 18 months.
- *Mentored three junior engineers through structured code-review sessions and weekly 1:1s.

Software Engineer - Twilio (2016 - 2020)

- *Built a rate-limiting service in Python/Redis that cut abuse-related outages by 70%.
- *Migrated a monolithic Django app to a suite of FastAPI services, reducing deploy time by half.

EDUCATION

BSc Computer Science - UC Berkeley (2016)

CERTIFICATIONS

AWS Certified Solutions Architect - Associate
