SUMMARY

Data scientist with four years turning messy business data into revenue-impacting models. Skilled in Python, scikit-learn, XGBoost, and running rigorous A/B experiments. Presented findings to C-suite audiences and influenced product strategy at two companies.

SKILLS

Python, scikit-learn, XGBoost, pandas, NumPy, Matplotlib, SQL, A/B testing
Bayesian statistics, MLflow, Jupyter, Looker, Spark (basic), R

EXPERIENCE

Data Scientist - Wayfair (2022 - present)

- *Built an XGBoost churn-prediction model reducing monthly churn by 8% via targeted retention offers.
- *Ran 20+ A/B tests end-to-end including power analysis, instrumentation, and executive read-outs.

Junior Data Scientist - Liberty Mutual (2020 - 2022)

- *Developed a claims-fraud detection model with 85% precision, saving an estimated \$2 M annually.
- *Automated weekly reporting with Python scripts, saving 6 analyst-hours per week.

EDUCATION

MSc Statistics - Boston University (2020)

CERTIFICATIONS

Google Professional Data Analyst
