SUMMARY

ML researcher with a PhD in NLP and five years of post-doctoral and industry experience. Published 12 peer-reviewed papers on transformer architectures and alignment. Seeking to apply cutting-edge research to real-world products at scale.

SKILLS

Python, PyTorch, JAX, Hugging Face Transformers, RLHF, Prompt engineering, NLP evaluation benchmarks, LaTeX
Research design, Statistical hypothesis testing, MLflow, Slurm

EXPERIENCE

Research Scientist - Allen Institute for AI (AI2) (2022 - present)

*Lead researcher on a multilingual reasoning benchmark adopted by 40+ NLP labs worldwide.

*Co-authored RLHF alignment paper accepted at NeurIPS 2023 (citations: 340).

Research Intern - Google DeepMind (Summer 2021)

*Explored chain-of-thought prompting strategies that improved GSM8K accuracy from 57% to 68%.

EDUCATION

PhD Natural Language Processing - MIT CSAIL (2022)

MSc Artificial Intelligence - University of Oxford (2017)

CERTIFICATIONS

NeurIPS 2023 Best Paper Honorable Mention

LANGUAGES

English (fluent) | Arabic (native) | French (conversational)
