SUMMARY

Senior DevOps/SRE with 8 years managing production infrastructure at scale. Expert in Kubernetes, Terraform, and AWS. Reduced MTTR by 60% at two companies through better observability and on-call tooling.

SKILLS

Kubernetes, Terraform, AWS (EC2, EKS, RDS, S3), Helm, ArgoCD, Prometheus, Grafana, ELK Stack
GitHub Actions, Python, Bash, Vault (HashiCorp), PagerDuty, Incident management

EXPERIENCE

Senior Site Reliability Engineer - Intercom (2020 - present)

- *Managed 300-node EKS cluster serving 30 k requests/s with 99.99% monthly uptime.
- *Designed a GitOps deployment pipeline with ArgoCD cutting release lead time from 2 days to 2 hours.
- *Led blameless post-mortems for 15 major incidents, improving runbooks and alert thresholds.

DevOps Engineer - Paddy Power Betfair (2016 - 2020)

- *Migrated 200 microservices from bare-metal to Kubernetes over 18 months with zero customer downtime.
- *Built Terraform modules for standard AWS infrastructure, reducing new-service setup from 2 weeks to half a day.

EDUCATION

BSc Computer Systems - Dublin City University (2016)

CERTIFICATIONS

Certified Kubernetes Administrator (CKA) | AWS Solutions Architect - Professional
