SUMMARY

QA automation engineer with five years building maintainable test frameworks for web and API layers. Expert in Playwright and Cypress. Reduced release-blocking regressions by 80% through shift-left testing practices.

SKILLS

Playwright, Cypress, Selenium, Jest, pytest, REST Assured, TypeScript, Python
CI/CD (GitHub Actions), Test planning, Performance testing (k6), Accessibility testing (axe-core), BDD (Cucumber)

EXPERIENCE

QA Automation Engineer - Rakuten (2021 - present)

- *Built a Playwright test suite with 500 end-to-end scenarios, integrated into every PR via GitHub Actions.
- *Introduced k6 performance tests that surfaced a 3x regression in checkout latency before a Black Friday release.

QA Engineer - CyberAgent (2019 - 2021)

- *Automated 70% of a previously manual regression checklist, freeing 2 QA FTEs for exploratory testing.
- *Implemented axe-core accessibility checks across 20 pages, achieving WCAG AA compliance.

EDUCATION

BSc Information Technology - Osaka University (2019)

CERTIFICATIONS

ISTQB Certified Tester Foundation Level
