SUMMARY

Recent BSc Computer Science graduate eager to contribute to a collaborative engineering team. Completed two software internships and built three full-stack side projects. Quick learner, detail-oriented, and passionate about clean code.

SKILLS

Python, JavaScript, React, Node.js, Java, SQL, Git, Docker (basic)
REST APIs, pytest, JUnit

EXPERIENCE

Software Engineering Intern - Cisco Systems (Summer 2024)

- *Built a React dashboard for network telemetry data viewed by 200 network operations engineers.
- *Fixed 14 production bugs in a Java backend service and wrote unit tests to prevent regressions.

Software Engineering Intern - SAP Labs (Summer 2023)

- *Contributed three features to an internal developer-tooling Python CLI used across 50 teams.
- *Presented a performance analysis of REST vs GraphQL to a team of 20 engineers.

EDUCATION

BSc Computer Science - San Jose State University (2025)

LANGUAGES

English (fluent) | Mandarin (native)
